To the FCC -I subscribe to XM radio in order to receive superior programming choices, commercial free music and accurate, up to the minute traffic and weather information. I gladly pay for these programming features as they are unavailable on commercial FM or AM stations.

The NAB has no right to infringe on my right to listen to the programming I choose. That the NAB is asking the FCC for relief via their petition 04-160, due to the inability of its' members to compete in the marketplace is despicable and counter to the American tradition of free enterprise.

I urge every commissioner to reject the NAB's petition 04-160 and to support XM Radio's ability to offer the superior programming I have the right to choose.

Sincerely,

Bruce Ogden
